- Micron Filter Patch for contaminate free air exchange.
- Self healing injection port for safe inoculation.
- Nutrient Rich Microbiome

Wunder Grow Proprietary Substrate Blend featuring:
Worm Castings • Coco Coir
Sterilized Millet • Water Gypsum • Vermiculite

INTRODUCING WUNDER GROW BAGS: UNLEASH THE MAGIC OF MUSHROOM CULTIVATION WITH 4 SIMPLE STEPS!

Are you ready to embark on a thrilling adventure into the world of mushroom cultivation? Look no further than Wunder Grow Bags, the all-in-one solution for growing your very own cubensis mushrooms. With just four simple steps, you'll be on your way to a bountiful harvest of nature's most fascinating fungi.

1

Inject the Power of Liquid Culture

With Wunder Grow Bags, kickstart your mushroom growth by injecting 10 ml of liquid culture into the bag. This essential step introduces the fungal spores and establishes the foundation for robust mycelium development.

2

Massage and Blend for Success

After injecting the liquid culture, gently massage it into the substrate blend within the bag. This ensures thorough distribution of the cultures and encourages their integration with the nutrient-rich substrate. Allow the magic to merge as the cultures and substrate unite.

3

Shake and Stimulate Growth

Around 2 weeks into the growth process, gently shake the bag to break up the mycelium and distribute it more evenly. This helps stimulate further growth and encourages the formation of healthy and abundant mushrooms. Witness the mycelium flourish as you give it a gentle shake.

4

Patience and Harvest Rewards

Now comes the exciting part! Place your prepared Wunder Grow Bag in a suitable growing environment and patiently wait for 6-8 weeks from the initial injection. During this time, the mycelium will continue to grow and develop, preparing for the emergence of magnificent cubensis mushrooms. Once they reach their full potential, it's time to harvest and savor the fruits of your labor.

BONUS ROUND

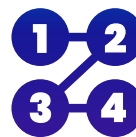

Once you have Harvested you can reseal the bag with tape and watch as a 2nd flush unfolds in 10-14 days!

WHY CHOOSE WUNDER GROW BAGS?

CONVENIENCE

Say goodbye to complicated setups and time-consuming processes. Wunder Grow Bags are designed to be hassle-free and user-friendly, allowing you to enjoy the experience without the stress.

SIMPLICITY

The 4-step process of injecting, massaging, shaking, and waiting makes mushroom cultivation accessible even to beginners.

QUALITY

Wunder Grow Bags are meticulously designed with a nutrient-rich substrate blend, providing the ideal conditions for robust mycelium growth and abundant mushroom harvests.

THRILLING RESULTS

Experience the joy and satisfaction of harvesting your own cubensis mushrooms, knowing you played a part in their miraculous journey from spores to fruition.

Unleash your inner mycologist and embark on a rewarding mushroom cultivation adventure with Wunder Grow Bags. Inject, massage, shake, and wait for the magic to unfold.

ORDER YOUR WUNDER GROW BAGS TODAY AND WITNESS THE INCREDIBLE TRANSFORMATION FROM LIQUID CULTURE TO A BOUNTIFUL HARVEST OF CUBENSIS MUSHROOMS!
